

Two more defibs.....

Earlier this month the ADF were delighted to site two new defibrillators, one on the outside wall of the Weydon Christian Centre in Upper Way and the second at the premises of A&D Car Care Services located on the Guildford Road Trading Estate. Both sites offer full public 24hr access seven days a week.

The defibrillator at the WCC was fully funded by a donation from the Lions Club of Farnham whilst the A&D defibrillator was jointly funded by the Farnham Lions and A&D Car Care Services.

Lion President Phil Alexander said "our members are delighted to have made these donations to such a worthy cause. We would also like to thank the Weydon Christian Centre for enabling the siting of the defibrillator in an area of Farnham that previously lacked this valuable resource and to A&D Car Care Services for working together with us to raise the funding, and of course to the ADF for bringing it altogether".

Tony Lacy at A&D went on to say "we are really delighted to support this great community project, and to have worked with the Lions and the ADF to make this possible. Further thanks to many of our customers who contributed by purchasing raffle tickets in our Xmas Draw".

Michelle Basson said "On behalf of the Jubilee Church Farnham, we would like to say a heartfelt thank you to the Lions for the donation of the external defibrillator to the Weydon Christian Centre. It's an invaluable gift we hope never to use but find comfort knowing that it's there should anyone in the Centre or local community ever need it".

Jo Michaelides, one of the ADF Trustees, also commented that "she was delighted to see the ADF initiative really beginning to fulfil the vision of being a true community project, and these two installations go further to show the reach that the project is starting to have.
